

Premium Inox Sign Fixings

The Inox range combines high grade stainless steel with a sharp modern design

Product Brochure

Create displays which require a seamless, contemporary look

Premium Inox sign fixings are of a superior quality ideal for point of sale displays and internal wayfinding.

Manufactured from solid stainless steel and with a wide choice of well-designed components, the range includes wall mounted panel supports and a suspended cable system that provide almost limitless design variations.

Wall mounted panel supports create clean display installations that conceal the appearance of fixings. Mount button fixings can secure panels flush to the wall or have the option to stand-off using spacers. Other stand-off options can be achieved using through-hole panel supports, wall panel grips and side grip panel supports.

The alternative suspended cable system is purchased in kit form with panel grips available individually.

Maintaining a satin brushed finish, each of the sign fixings in the Premium Inox range can create coordinated systems and with the ability to run an electrical charge through cables and rods, illuminated displays can be achieved. For displays which often require frequent modifications, the range provides easily updated systems with products which can be used time and time again.

Key features

- Contemporary design
 - Accommodates 2mm to 12mm thick materials
 - Easy to update systems
 - Wide choice of well-designed components
 - Uniform system in brushed stainless steel

	Part Code	Thickness of panel
	CC15HP06	≤ 6mm

Through Hole Panel Supports

	Part Code	Diameter of panel support	Standoff	Thickness of panel	Diameter of panel holes
	DH131507	13mm	15mm	2-7mm	8mm
	DH132012	13mm	20mm	2-12mm	8mm
	DH181507	18mm	15mm	2-7mm	12mm
	DH181512	18mm	15mm	7-12mm	12mm
	DH302512	30mm	25mm	2-12mm	15mm

Cable System Kits

Hanging kit for up to 6mm panels

CC15KIT4
<ul style="list-style-type: none"> • 17mm diameter top fixing • 1.5mm diameter stainless steel cable (2m) • Hanging support for up to 6mm panel • Cable grip

Side Grip Panel Supports

	Part Code	Diameter of side grip	Projection	Thickness of panel
	SG182008	18mm	20mm	≤ 8mm
	SG302008	30mm	20mm	≤ 8mm

Wall/Ceiling Panel Grip

	Part Code	Thickness of panel
	WG170008	≤ 8mm

Installation tip for 1.5mm diameter cable

Add 10mm on each side of the display panel to determine the distance between the cable centres. When using panel grips for panels up to 4mm thick, the dimension is decreased to 8mm on each side.

Please see next page for more hanging kits

Cable System Kits Continued

Conical suspension clip kit

APC-4001 Kit

Contains

- 2 x conical suspension clips
- 2 x 1.5mm thick, 1.5m long 1.5mm thick galvanised cable with 4.5mm ball nipple
