Auragami from Applelec Lighting

SloanLED from Applelec Lighting

## BACKLIGHTING SOLUTION SPECIALISTS

Applelec Lighting is a UK manufacturer and supplier of premium backlighting solutions, such as our award winning, Applelec LED Light Sheet, our flexible Auragami light tile and selection of premium LED modules and systems from SloanLED.

We are here to support you with our team of office-based experts, who work closely with you throughout the process, and our field specialists who can assist on-site, or for visits to ensure your lighting project designs are achieved.

Delivering superior engineering, products and customer service, Applelec Lighting has built a reputation as the go-to backlighting solution specialists within the design industry.

## APPLELEC LED LIGHT SHEET

Applelec LED Light Sheet is brought to you with over 20 years of industry expertise and unrivalled technical knowledge. Manufactured at our West Yorkshire premises, our light panel range features superior components and engineering.

- Made in Britain
- Bespoke manufacture
- Environmentally friendly, 100% recyclable option
- Delivers bright and consistent backlighting
- 5 year warranty

Project: Selfridges Optics  
Location: London  
Designer: Nulty+

## AURAGAMI FROM APPLELEC LIGHTING

Auragami from Applelec Lighting is an extremely flexible and versatile backlighting tile, helping to bridge the gap for achieving complex lighting design schemes.

- Features fold, bend, curve, wrap flexibility
- Can be tailored as required
- IP65 rating as standard
- Illuminates heavy stone up to 20mm depths
- 5 year warranty

Project: Eaton Mews  
Location: London  
Designer: Jess Weeks Interiors

## SLOANLED FROM APPLELEC LIGHTING

SloanLED from Applelec Lighting is a diverse range of highly energy efficient, premium LED modules and systems. Featuring optical lens technology, SloanLED produces powerful backlighting for striking illuminated schemes.

- Impressive 5-10 year warranty
- Lightweight construction
- Simple application
- IP66 & IP68 rating
- Wide variety of LED options available

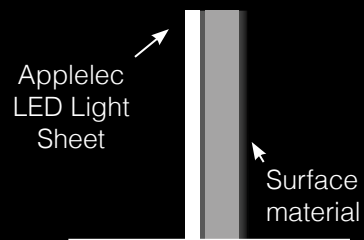

Project: Monks Cross  
Location: York  
Designer: Urban Edge Architects

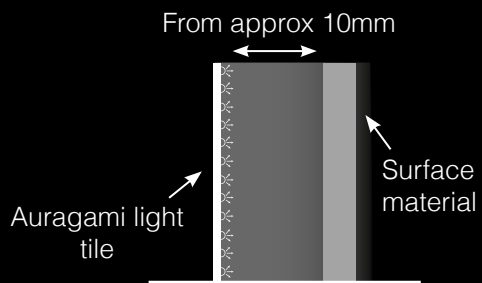

## SPECIALISTS IN BACKLIGHTING

With our wide range of backlighting solutions, we can help facilitate the bespoke nature of lighting designs and when challenged with varying depths and differing face panel densities, we have the perfect lighting solution.
