2020  
LETTERING COLLECTION

## WE INSPIRE TO CREATE AMAZING PLACES

Applelec SignPik is a curated range of products derived from over 20 years of industry experience.

Through Applelec SignPik we inspire to create amazing places, with an innovative range of finishes and manufacturing techniques that will not fail to impress.

For me, Applelec SignPik is a range of products that enables creativity; its style and quality is distinguished and its selection is simple and customer focused.

We are excited to support our clients with this exceptional range and we retain the Applelec promise; to never sell directly to end users.

A handwritten signature in black ink, appearing to read 'Ian Drinkwater'. The signature is fluid and cursive, with a long horizontal stroke at the beginning.

**Ian Drinkwater**, Managing Director

## Introducing Applelec SignPik

# Unleash your individuality

Applelec SignPik allows your style to shine. This extensive range of products has been designed to complement your vision.

## Convenience without compromise

Applelec SignPik work only with specialist distributors. These professionals support you to achieve your aspiration in line with your budget.

# Discover innovation

Applelec SignPik is distinguished by exceptional finishes and precision manufacturing to deliver a striking and unique impact.

# Applelec assurance

Applelec SignPik combines over twenty years of industry expertise to form the range. It is fully supported with the Applelec Quality Guarantee and a 1 year UK Warranty.

---

# Illuminated Finishes

The luminosity of Applelec SignPik illuminated signs is flawless. These energy efficient, LED letters offer the versatility of either face or halo illumination in a range of colour and metal finishes.

---

# Face Illuminated

The striking and elegant effect of Applelec SignPik face illuminated letters is unprecedented. The wide choice of both LED colour options and metal returns provides a customised finish, which is tailored to suit your design.

The consistency of light is controlled with a detailed routed internal structure to the letter's acrylic faces, allowing wider distribution of light in tight crevices. A choice of 3000K warm white or 5000K cool white light is available on all products.

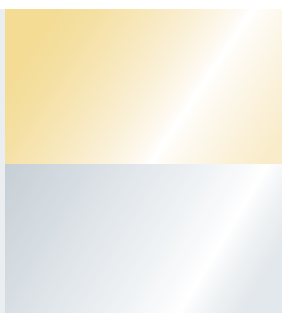

A striking face illuminated letter.

The dark obsidian tone creates contrast against the illuminated face.

Illumination is available in two colour temperatures – 3000K warm white and 5000K cool white.

# Halo Illumination

The elegance of halo illumination enhances the appearance of lettering complementing any design with refinement and sophistication. Applelec SignPik halo illumination diffuses the light produced by the LEDs through an acrylic base to produce a beautiful consistent glow on all surfaces without the LEDs being

visible. The discreet edge illumination allows for a smooth, uniform glow of light around the whole perimeter of the lettering. The construction comprises of a closed acrylic base excluding any shadowing, and allowing the letter to be mounted flush to the surface.

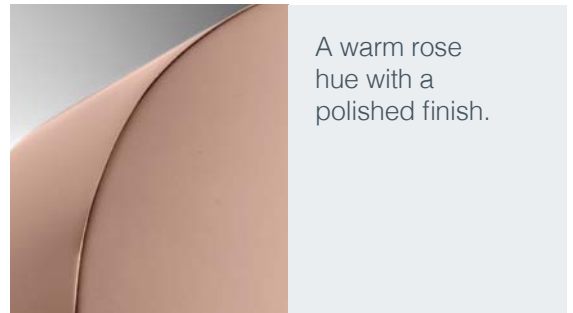

# Polished Rose Gold

020 | Illuminated Finishes: Halo

Polished Rose Gold Halo Illuminated - Style 1

A warm rose hue with a polished finish.

The letter surface is enhanced by the halo effect.

Illumination is available in two colour temperatures – 3000K warm white and 5000K cool white.

---

# Neon Finishes

This beautifully striking effect removes the risks associated with traditional neon signs. Applelec SignPik neon signs are low voltage, safe to touch, easy to install and robust.

This option offers the glass tube appearance of clear or frosted retro neon lighting. The rounded face of the lettering gives a crystalline illusion to the eye, retaining that retro neon style. This is further enhanced by the light refraction of the oval prism face, transferred from the energy efficient LED light source.

---

# Clear Glass Neon Effect

The clarity of light and impact of the Applelec SignPik clear neon effect is as eye-catching as it is distinctive. The rounded, polished clear acrylic face beautifully achieves a neon effect.

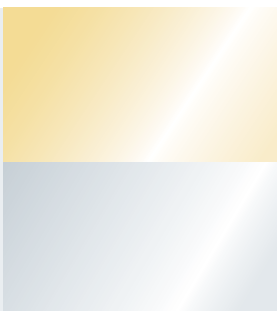

A striking retro clear glass neon style.

The dark, polished, reflective obsidian complements the neon.

Illumination is available in two colour temperatures – 3000K warm white and 5000K cool white.

# Metal Finishes

These classic designs deliver instant impact with the beautiful detail of their finish.

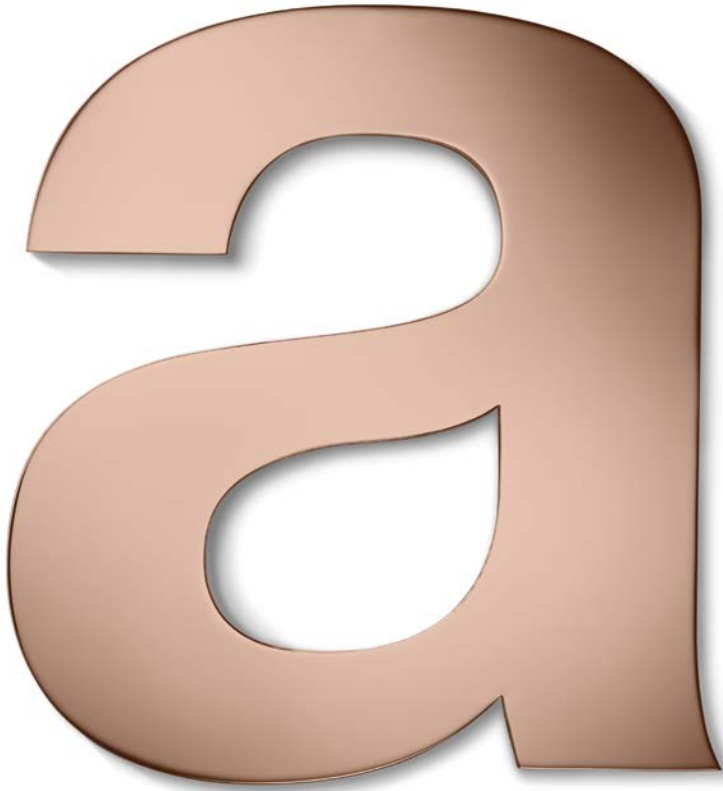

The polished edge of the flat-cut and blended edge of the built-up finish distinguishes the quality and elegance of the letters.

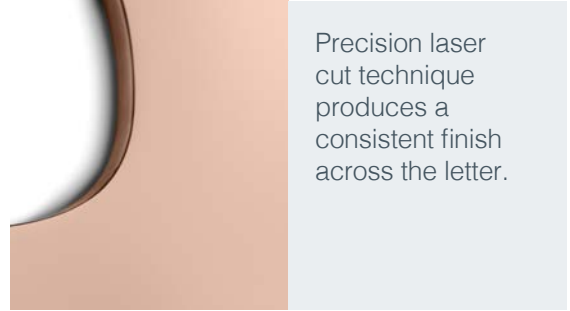

# Polished Rose Gold

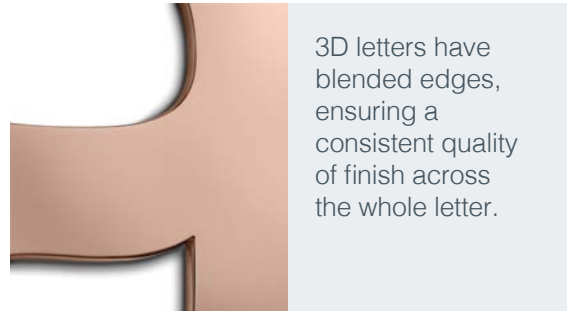

Polished Rose Gold Metal Finish - Style 1

A warm rose hue with a polished finish.

Precision laser cut technique produces a consistent finish across the letter.

3D letters have blended edges, ensuring a consistent quality of finish across the whole letter.

# Fixings, Application in coastal areas & Colour temperatures

Available fixing options are specific to the product and are specified on the individual pages.

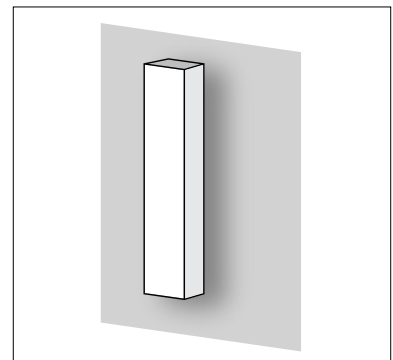

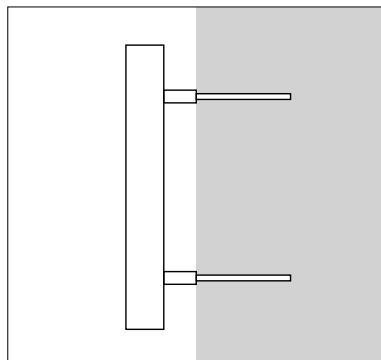

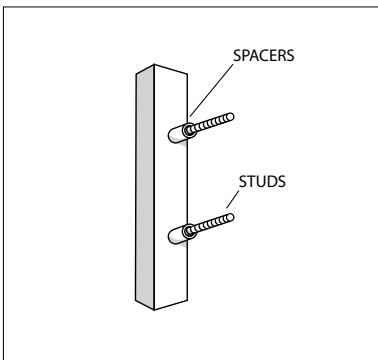

Flush fitting example: Tape

Flush fitting example: Stud

Offset fitting example: Stud with spacer

Please note: spacers are not supplied but can be used to offset the lettering from the mounting surface.

## Application in coastal areas

Applelec SignPik products are not suitable for external use within 1 mile of the coast. For application within 1 mile of coastal areas, a 316 steel upgrade must be applied and could be subject to a surcharge. Contact your Applelec SignPik partner to discuss.

## Colour temperatures

Illuminated and neon products are available in two colour temperatures – 3000K warm white and 5000K cool white.

Where an illuminated product is ordered with a painted finish, the light colour can be specified to match the RAL colour.

# Bespoke signage solutions

Applelec have over 20 years of experience manufacturing bespoke signage solutions. We have and always will only supply to specialist, approved partners.

## Want to make an alteration to an Applelec SignPik product...?

If your signage requirements are a little different to the Applelec SignPik range, you can ask your preferred partner to provide a quotation and timescale for bespoke alternatives, such as different sizes or fonts.

## Need a completely custom made signage solution...?

For any signage solution, even completely unique and bespoke designs, our experienced team will work with your preferred partner to deliver your signage requirements with excellence.

Our comprehensive range of signage solutions includes fabricated signage, plaques and plates, sign trays, totems and monoliths.
